# Aerial Transmission Plates Finishes

## CHOOSE FROM 5 FINISHES

### U.V. SCREEN PRINTED ALUMINUM

Flat Printed Black on Yellow Aluminum

Embossed Black on Yellow Aluminum

Reflective Black on Yellow Aluminum

### U.V. DEEP STAMPED POLYETHYLENE

Hot Stamped Black on Yellow Polyethylene

Ultima Engraved 3-D Black on Yellow UV Polyethylene

## SPECIFICATIONS

### METAL TAGS:

Manufactured from .025 to .040 thick aluminum. Printed tags have a durable, clear baked enamel top coating with U.V. inhibitors which seal in image and add years of service to these quality tags.

### POLYETHYLENE TAGS:

Chemical and moisture resistant polyethylene treated to provide weatherability. Deep stamped or 3-D Engraved.

### REFLECTIVE TAGS:

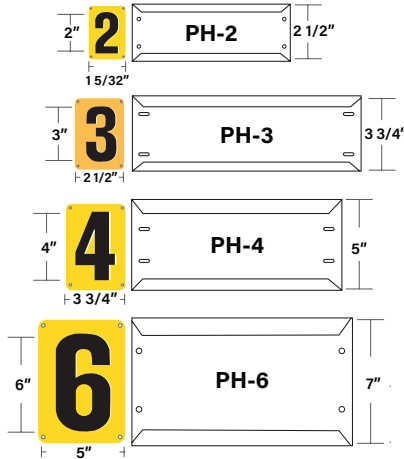

Made of the finest 3M® Scotchlite or Avery materials and laminated to aluminum substrates. These tags are printed with U.V. enamels for maximum life and highly reflective qualities in all weather conditions.

# Plate Holders

Length of Holder is determined by Number of Tags

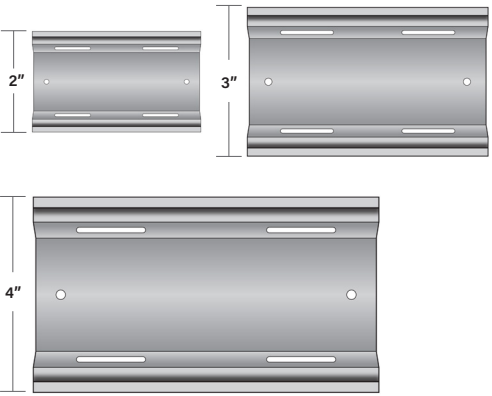

### ALUMINUM .024"

Available with holes or optional slots for banding. Vertical or horizontal styles in 2", 2.5", 3", 4" and 6" sizes.

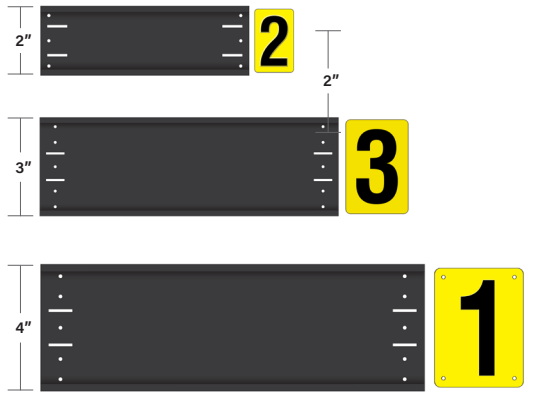

### EXTRUDED ALUMINUM .062"

Available with slots and holes for Vertical or Horizontal styles in: 2", 3", 4", 6" and 8" Horizontal and 10" Vertical.

### U.V. POLYETHYLENE .050"

Vertical or Horizontal styles in 2", 3" and 4" Vertical.

# Accessories

### E-Z BANDS & BUCKLES

- Natural Aluminum .025" x 750" x 100'
- Anodized Aluminum .025" x 750" x 100'
- Stainless Steel .015" or .030"

### BANDING TOOL FOR STAINLESS BANDING - BT-01

### ALUMINUM NAILS - AN-1.5

Designed for safety-reduce accidents
