#### BENEFITS:

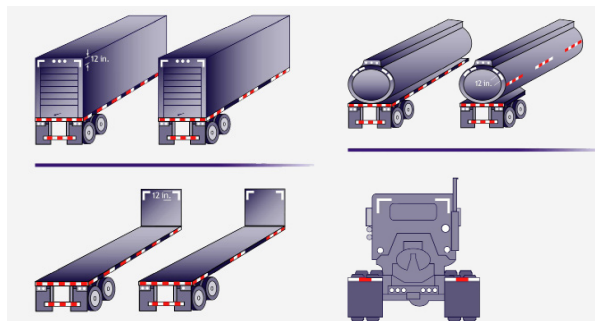

- Reduce Auto Accidents by Increasing Visibility
- Low Price
- Non-Corrosive
- Quick and Easy to Install

#### STANDARD SIZE SELECTION:

### CONSPICUITY TAPE

Making the roads a safer place has always been the main focus of Lordon Inc, and in keeping with that tradition, we have added Conspicuity Tape to our continually expanding line of Traffic Safety Products. Federal regulations require semi-trailers exceeding 10,000 lbs GVWR to have alternating red and white DOT-C2 approved 2" wide conspicuity tape applied along at least 50% of their lengths and entirely across their back ends. Our extremely reflective adhesive tape is sure to increase the visibility of trucks, trailers & school buses and is the key for improving safety.
